

Are there any other stations wishing to check in?

(Repeat the list of check ins)

This is (NCS name, call). I will now call each station in turn for comments.

Are there any late or missed stations for the net? Please come now with your call sign, name and current location.

Hearing nothing further, I wish to thank all stations for their participation and help as well as those who stood by to give us a clear operating frequency. This is (NCS name, call) securing the Knox RACES/CERT Net at _____ pm local time. This frequency is now open for general amateur use. Have a good evening.
